# CHECK OUT YOUR MEMBER BENEFITS!

InfoSparks

This interactive market analytics tool changes the way real estate pros use and share housing information. From area comparisons to customizable variables to trend analysis, you'll love the simplicity of InfoSparks!

Compare	Define	Analyze	Share
Compare up to four areas by many housing variables and market metrics at once.	Define each variable category for all types, in selectable groups or singularly.	Quickly scroll through important market metrics for your defined areas.	Share live charts and snapshots of the market, or download raw data to make your own charts.
